Note*

	declining trend
	rising trend
	Constant

Note**: The above summary is based after analyzing disease trend at State level. However, district wise variance in disease trend is seen which have been interpreted in subsequent pages. Districts are accordingly required to go through the report and undertake subsequent action for control and management of diseases that show a rising trend. The districts are expected to keep a close eye on the disease trend especially of Enteric, Food, Water and Vector-borne diseases on account of prevailing monsoon season to avert any future impending disease outbreaks. Due to greater file size, only graphical representation of diseases trend have been incorporated in this report. Annexure containing data can be downloaded from **website: www.statehealthsocietybihar.org.
